Standard Installation price plus first month and tax due up front. Includes professional mounting of antenna on outside of house, 80 foot of wire from antenna, and hookup to router or desktop computer, (ROUTER/MODEM PROVIDED BY WAVELINC). Additional charges based on complexity of install will be determined prior to installation.

All new customers require paperless billing with credit card auto-pay, and Terms of Use agreement signing. Existing customers upgrading to 5G will require upgrade fee, CC autopay and new Terms of Use agreement signed.

* Non-unlimited data plan will reduce speed to 1Mbps after monthly data allowance is met.

** 100mbps package only available in Bucyrus, OH Metro and certain other towers with upgraded microwave backhaul capability.

*** Additional buildings on same property that customer needs hooked up will be treated/charged as an additional monthly account minus a \$10 discount fee.
